*"Symposia Medicus provides an all access pass to world class lectures
covering clinically relevant topics in the most inviting settings.
Your first Symposia Medicus conference will not be your last!"*

-John Mirabello, MD

*"I always enjoy Symposia Medicus conferences because I am never
disappointed. You always have interesting speakers with up-to-date
information that I can use in my practice and share with my colleagues."*

-Zelda Collett- Paule, CNM

*I love Symposia Medicus conferences. They are fun and laid-back, but
extremely informative. Their lectures are very up-to-date and thorough.
Symposia Medicus helps make me a better physician. After attending several
conferences, I now feel like I'm part of the Symposia Medicus family!*

CONFERENCE DESCRIPTION

Our 17th Annual Conference on High Risk Pregnancy is designed to provide perinatologists, obstetricians, family practitioners, certified nurse midwives, obstetrical nurses and all other healthcare professionals who take care of pregnant women with the most current clinical information about the care of the **high risk pregnancy**. **The primary goal of this conference is to enhance knowledge and improve competence of attendees.**

Content for this year's conference has been selected using extensive needs assessment data including past participant stated needs, clinical expert input, and Symposia Medicus' on-line needs assessment survey of healthcare professionals involved in obstetrics.

Conference format will include didactic lectures, small group workshops and question/answer discussion periods.

An outstanding, nationally prominent faculty have been selected based on their individual areas of expertise; their ability to communicate evidence-based, practical information; and, their willingness to interact with participants.

This conference will provide you with an opportunity to share current ideas with colleagues from across the country in beautiful Marco Island.

CONFERENCE OBJECTIVES

After participating in this conference, you should have an increased knowledge of, and be more competent to...

- Provide appropriate management for hypertensive emergencies in pregnancy
- Recognize the clinical science of 17-P for preterm birth prevention and its use in clinical practice
- Recognize the use of cervical length to decrease preterm birth
- Develop a plan for antepartum management of the twin gestation
- Provide an evidence-based approach to doing a cesarean delivery
- Evaluate NICHD standardized fetal monitoring terminology, maternal and fetal physiology, and clinical management issues in fetal heart rate monitoring
- Recognize the problems with obesity for the pregnant woman, fetus, neonate, and healthcare provider
